

ROBOTS IN MARS

Adventure comic.

Principal robots

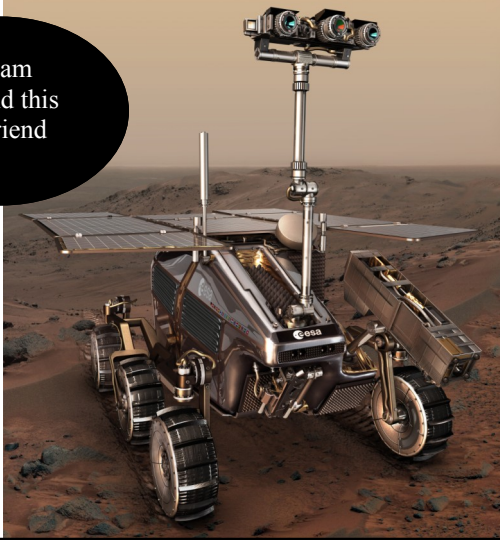

The thing that we are going to tell you is robots sends to mars. The first space shuttle they send to mars was a robot that need to explore the rocks and the planet. The firs shuttle was of the nasa .Another name for mars is the red planet because is red.

COMIC

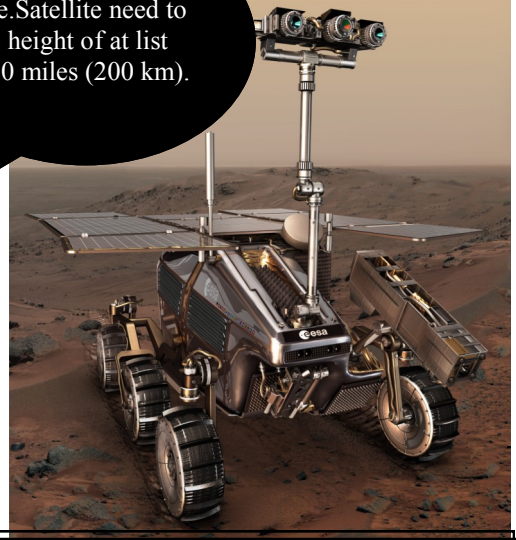

If you want to know more about mars consult our comic.

You like mars? If you like it is fan to read comics about it.

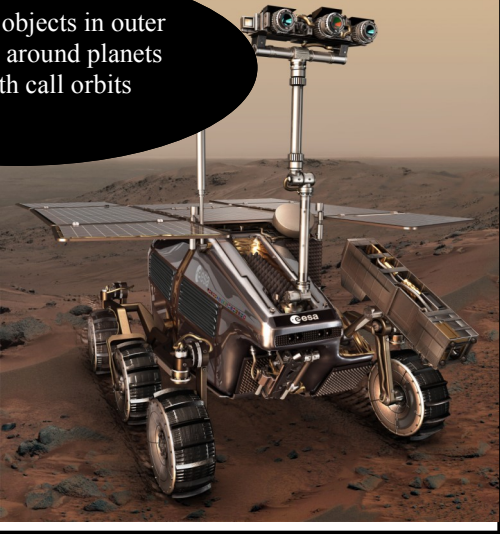

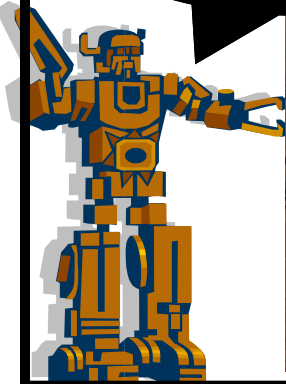

Hello I am robit and this is my friend

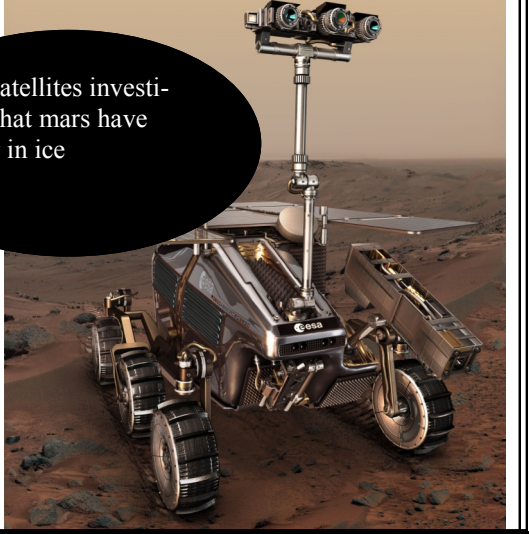

.My friend is a satel- lite. Satellite need to go height of at list 120 miles (200 km).

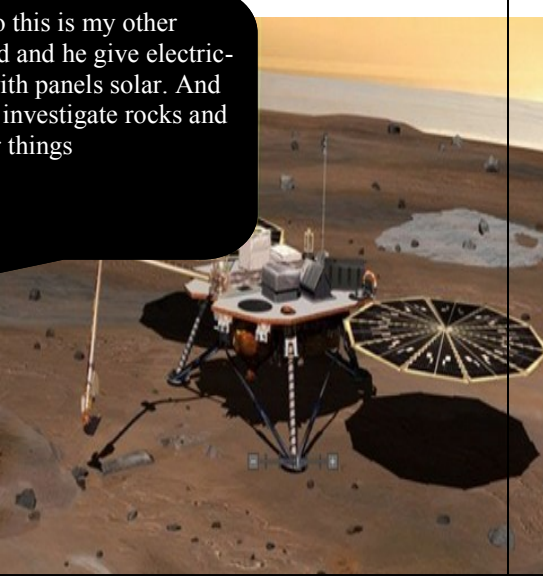

Satellites are objects in outer space that fly around planets in circular path call orbits

The satellites investi- gate that mars have water in ice

Hello this is my other friend and he give electric- ity with panels solar. And he is investigate rocks and other things

Some satellites are launch of the ground but others are launch of high flaying planes. It uses less fuel.

!!! Bye this is alljjj
