

# THE MILKY WAY

**How many stars are there in our galaxy?**

Galaxies with less than a billion stars are consid-

**What are three types of galaxies?**

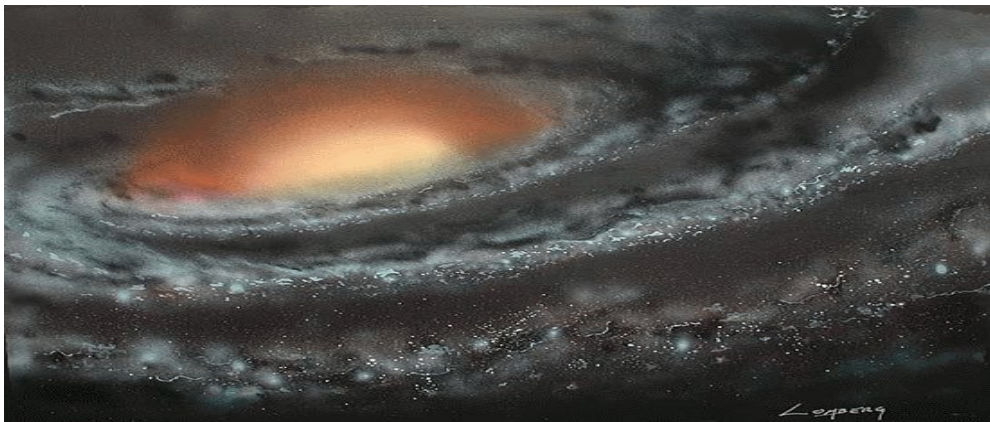

The three types are: spiral galaxy, elliptical galaxy, and circular galaxy.

**How is a galaxy made of?**

Our galaxy is made of billions of stars, and is named the milky way.

**What type of galaxy is the milky way?**

The milky way is an spiral galaxy because the stars are in a spiral form.
