

# Spirit, the Mars robot.

Here is the beautiful place where spirit work, live and sleep.

Here the scientist are trying Spirit's body and his wheels in different landforms.

Here we mention some interesting parts of Spirit.

BY: CARLOS MARIO CARVAJAL AND SEBASTIÁN DE LA PAZ.

### Interesting facts

Spirit is NASA's robot made in 2004 in the United States of America.

*Spirit arrived to Mars in Sunday 3 of January of 2003.*
